```
program
        make_withdraw:=
parameters: balance
body: return amount => {
                  if (balance >= amount) {
                      balance = balance - amount;
                      return balance;
                  } else {
                      return "insufficient funds";
```
